### **Amsler Grid Test**

Purpose:

To detect any NEW changes in your vision

Instructions:

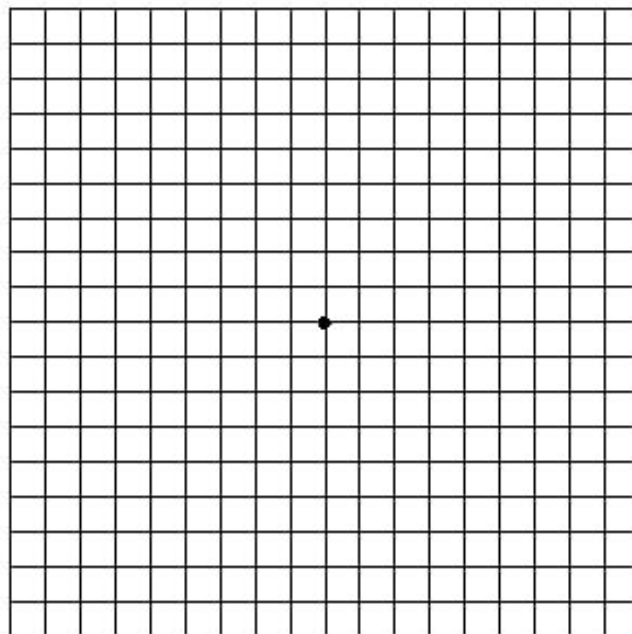

- 1) Place the Amsler grid in a well lit area at a comfortable reading distance (14 inches).
- 2) Wearing your glasses (if you wear glasses) check each eye individually.
- 3) Stare at the center dot and ask yourself the following questions:

Can I see the center dot?

Are there any NEW blank or dark spots within the grid?

Are there any NEW distortions or waviness of the lines?

Are all four corners present?

**IF THERE ARE ANY NEW CHANGES IN THE GRID, YOU SHOULD NOTIFY YOUR EYE CARE SPECIALIST IMMEDIATELY.**
